### **Wolford Postpones Presentation of Annual Results Until August 24, 2017**

Bregenz - The Executive Board of Wolford AG hereby announces that the original date of Friday, July 14, 2017 scheduled for the presentation of the annual financial statements and consolidated financial statements and the annual results press conference will be postponed until Thursday, August 24, 2017. The underlying reason for the decision is the regular review of all publicly listed Austrian companies by the Austrian Financial Reporting Enforcement Panel (AFREP). The Executive Board expects such a routine review to be concluded in the next days. If necessary, the results have to be taken into consideration when preparing the financial statements.

The Executive Board does not anticipate that the revised earnings forecast for the 2016/17 financial year published on April 12, 2017 will thus be negatively impacted.
